That's How Music Should Sound!

stage accompany

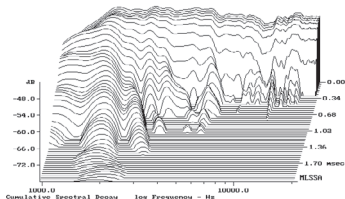

Ribbon Compact Driver™ SA 8535

- Unsurpassed clarity and speech intelligibility
- Extreme low distortion
- Very high output
- Unequaled transient response
- Direct Drive Diaphragm, no cone brake-up
- No compression mechanism!
- Low weight & high output through NEODYM® magnet

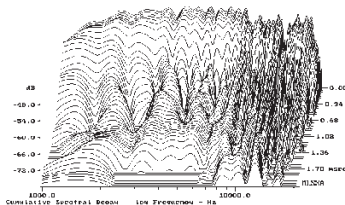

The revolution in sound!

After more than 75 years of compression driver technology, Stage Accompany brings you the Ribbon Compact Driver™. A radically new approach to professional sound reproduction!

The SA 8535 mid-high driver can truly deliver natural sound at very high sound pressure levels. Perfect vocal response and no listening fatigue at any time! The Ribbon Compact Driver™ is incorporated in all SA loudspeaker cabinets.

Ribbon Compact Driver™ SA 8535
